

The Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear The Federal Communications Commission,

As a consumer who is now retired can not now afford long distance service except via calling cards or pay per use cell phones, I urge you to support the "Fair Share Plan" as a solution to current concerns with the Universal Service Fund (USF).

Stop taxing, even indirectly, those of us who can least afford any additional expenses and instead make big business with the millions in loopholes pay even more.

cc: Marlene Dortch, Secretary

Sincerely,

Bill Miller
